His Royal Highness the Prince of Wales finds Canadian handshakes too hearty for his strong right hand, which has given out on him.

We would suggest as a relief to His Royal Highness that in future, while in Canada, at least, that he shake his right hand towards the enthusiastic crowds, exclaiming, "Ladies and gentlemen (or comrades, as the case may be), these are my sentiments!"

### JOB COMFORTERS GET A BLACK EYE

All fears of a drouth next year are being rapidly dispelled by the present copious rains. One of the chief causes of drouth this season was the extremely dry fall last year, which left no reserve of moisture in the soil, even for summer fallowed ground. This reserve is now being rapidly restored for next year.

Previous to the recent rains, many job comforters were busy predicting "another drouth year" for 1920—even Foster was on the job—and picturing the already gloomy prospects into actual down-and-out condition of the average farmer. While, of course, it is a little too early to predict what the crop conditions will actually be for next year, the recent rains give every indication of providing enough moisture to warrant every expectation of an abundant crop for 1920. The peculiar condition of our soil requires abundant rain in the fall or spring, just at the right time to ensure a crop the following season, and if we miss the rains at or before the critical period, so sure follows a disastrous crop failure, for invariably there comes a hot dry spell with scorching winds, burning up the crops and the pasture, and, in fact, practically all vegetation. This has been verified time and again, but amid the discouraging conditions under which our farmers are forced into at the present time, it should give them some hope that "next year" will be the year of all their hopes for that bumper crop for which they have been so patiently working for year after year. Most of them sorely need it—we all need it, farmer, business men and others. When the farmer prospers we all share in that prosperity, and visa versa, if the farmer has crop failures, let's us hope that 1920 will bring the banner crop. Next year! What hope and inspiration these two words have been to the farmer.

Federal Government to Buy Seed Grain

The Dominion government do not intend to take any chances of not having sufficient seed grain to meet all possible requirements next spring, as it is the government's intention to store 3,000,000 bushels of wheat in the elevators at Calgary, Saskatoon and Moose Jaw. It may not be necessary for the whole of this to be used for seed purposes, for grain firms would also have a supply, but the action was being adopted to guard against any possible shortage.

# Canada To Prohibit Excess Profiteering

Ottawa.—The Board of Commerce is forthwith to investigate profits on necessities of life. According to a ruling of the board, the special object of the enquiry "shall be to accumulate evidence for the purpose of ascertaining what (with allowance in each case for locality) shall be deemed to be fair profits, and to fix a date after which the taking of profits in excess of a rate to be determined shall be deemed unfair under the Combines and Fair Prices Act." The enquiry will embrace all matters which arise or induce the breach of any provision of the act, or any other antecedent laws or regulations.

The chief commissioner, Judge H. A. Robson, and Commissioner O'Connor are each ordered individually to report to the board, each of the said commissioners sitting for the purpose at such time and place as he may determine.

## Terrors Of Bolshevism

Everyone in Russia Lives Under a Shadow of Horrible Death and Torture

London.—Commander—Colonel John Ward has arrived in London, having been summoned from Russia by the War Office for a consultation. In an interview he stated that the horrors of Bolshevism rule had been far from exaggerated. It was, he said, indeed doubtful as to whether the story of half the atrocities in Russia had yet been told.

The secret of the prolonged regime of the Bolsheviks was simply terrorism. Everyone in Russia acted under fear of denunciation and of a horrible death. Besides there was no food, clothing or other necessities of life for those refusing to profess Bolshevik views. Against the Bolsheviks controlled the rich manufacturing districts and all attacks on them had to be made from the sparsely populated areas, hence it was impossible for the General Douhet should be supplied with munitions as should be Kolkhoz.

The Bolshevik forces, states Commander Ward, have practically unlimited supplies of munitions, as only a small portion of the munitions supplied Russia by the allies before the revolution fell into the hands of the Germans. Colonel Ward said he believed that the Bolsheviks had sufficient munitions for ten years.

**U.S. Navy to Go to Greet Prince**  
Vancouver.—Hon. Josephus Daniels, secretary of the United States navy, will send part of his Pacific fleet to Vancouver on September 22, when the Prince of Wales is to be here. Mr. Daniels wired city officials that while he would not be able to be present himself, he would be pleased to send part of the fleet, and would "make such arrangements as possible." Mr. Daniels is to visit Victoria on a dreadnought on September 11.

**\$30,000 for Grubstake**  
Ottawa.—The Division city's welcoming and re-establishment committee for returned soldiers has adopted resolutions asking the Federal Government for \$30,000 for relief of returned men who arrived grubstake too late to come to winter grubstake, or who are physically unfit, and asking particularly that soldier-men be given this assistance in lieu of land grants.

You will always have money if you save half your earnings.

# Miners In Britain Are Still Restless

London.—The situation of the coal question now is that the miners' Federation has unanimously rejected the government's plan for treating the miners in favor of nationalization. They have, however, left it to the Trades Union Congress, to be held at Glasgow on September 8, to decide whether there shall be direct action by the miners or whether constitutional means shall be employed to secure nationalization of the mines.

This means, in the opinion of the competent judges, that direct action will not be taken. The miners nevertheless, are said to be flirting with the idea and will endeavor to induce the labor triple alliance—the miners, transportation workers and railwaymen—to order, another ballot

## Farming To Be Taught To Imperial Veterans

Those Eligible For Dominion Aid Must Be Ready To Be Trained First

Ottawa.—The Soldier Settlement Board of Canada has issued regulations for the settlement of imperial soldiers or others of the British forces not resident at the outbreak of the war.

In order to become eligible for a loan, those who are not experienced in agriculture will spend two years in training in practical farming, and those who have had farming experience in the old land sufficient time with farmers in Canada under supervision of the board to become familiar with the Canadian methods. Settlers on purchased land will be required to pay down 20 per cent. of the purchase price.

A qualification committee will pass on applicants for settlement both before and after training. Evidence of adaptability necessary to fit in Canadian life and make a success of farming business will be an important consideration.

## Wilson Will Consult People

Going on Stump for Peace Treaty

Washington.—President Wilson has left on his western speaking tour on behalf of the peace treaty, confident of ratification of the instrument by the senate without amendments or "destructive reservations" which would require re-negotiation.

The trip, perhaps the most arduous ever undertaken by a President, will carry Mr. Wilson to the party as far west as the Pacific coast, almost to the Canadian border on the north and almost to Mexico on the south. He will speak in every state west of the Mississippi except four, and will make up for the omission of these by speeches in Ohio, Indiana, Kentucky and Tennessee. In Seattle he will deliver the Pacific fleet.

Although it is expected that the President will devote most of his attention to the peace treaty, he probably will also touch on the high cost of living and other domestic problems.

## Rumors Waste In Navy

Admiral Fisher Suggests Money Might Now Be Reserved For Better Things Than Fleets

London.—A protest couched in vigorous language in the Times by Lord Fisher on naval expenditure has evoked interesting comments. Lord Fisher declared against alleged incredible and ruinous waste in the navy, which now costs one hundred and forty million pounds sterling annually, as compared with thirty-four million in 1904, notwithstanding that the German fleet does not exist. Lord Fisher declares that half the navy is already obsolete and should be scrapped, and says that the other half will be equally useless in a few years because of internal combustion engines and oil.

Lord Fisher concludes: "If the nation does not take the splendid opportunity of trimming it is not far off."

**Another Hohenzollern**  
Berlin.—A son has been born to Duchess Victoria Louise of Brunswick, daughter of former Emperor William.

## Aviators Take Up Life On Ranch

To Breed Horses, Cattle and Sheep and Grow Cotton

London.—A party of former officers of the British forces held a meeting here with the purpose of getting acquainted preparatory to their departure for Central America, where they will take up life on a ranch under the supervision of Brig-Gen. Alfred Critchley, former commander of the Royal Air Force.

Brig-Gen. Critchley originated the plan "in recognition of the desire on the part of many other demobilized officers for healthy sporting and adventurous open-air life, combined with unlimited possibilities of a commercial nature."

One ranch, which is located in the centre of a well-stocked sporting area, it is proposed to breed horses and cattle and sheep, and grow cotton and other crops. The estate belongs to General Critchley.

It is planned to divide the land among the members of the party after the first year spent on it.

All the members of the party who will make the trip are, however, married men, who are former officers of the British forces, will be welcomed to membership in the club after the inauguration of the enterprise.

Brig-Gen. Critchley, who was born in Calgary 29 years ago, is widely known in Canada as a sportsman, hunting, polo, golf and tennis being his favorite pastimes. He was a member of the Lord Strathcona Horse at the outbreak of the war and went to Europe and served with the First Canadian Division. He was awarded the D.S.O. in 1915.

## Army Food Going Cheap

Prices Slashed to Meet Cut Made By Chain of Grocery Stores

New York.—Sale of surplus army food in New York took on the aspects of a cut rate war, when Market Commissioner Day, in charge of sales, announced that prices of canned soups had been slashed to meet a cut in soup prices made by a chain of grocery stores following army food sales.

The army soup originally was sold at nine and ten cents a can, which was below the price chain stores were asking for similar products. The chain stores cut their prices to three cents for 25 cents. Commissioner Day's new price for army soup is seven cents a can.

Commissioner Day also announced revision downward of the prices charged for army bacon, beans, corn, peas, condensed milk, corn syrup and canned tomatoes. All these staples now are being sold at prices considerably below those fixed by the fair price committee, he said. According to Commissioner Day, the army food sales have totalled more than \$500,000 in eight days, and at the present rate the supply of army food will have been exhausted in two more weeks.

**Warn Income Tax Dodgers**

Winnipeg.—A local paper, in a special dispatch from Ottawa, states that prosecution of income tax dodgers will begin this week, according to a report from the Department of Finance. The department, it is said, plans vigorous prosecution of all persons who failed to file a return on their income or who gave false information. Several Montreal and Halifax business men and several prominent westerners are in line for early prosecution, it is reported.

**Cheaper Meat For New Yorkers**

New York.—The retail price of meat has declined from one to two cents a pound in this city, according to Arthur Williams, federal food administrator, who has just issued his semi-weekly fair price list. In the matter of groceries, however, the campaign against the "pool" has not been so successful, as most of the items under this head have increased slightly.

**Arrest Mexican Outlaws**

Washington.—Outlaws responsible for the murder of John W. Carroll, an American citizen, have been arrested. The men will be placed on trial at Tampico, the Mexican embassy has announced. The arrests were made near Los Mochis and included Ramon Diaz, chief of the band, and his followers, Rafael Ruiz, Francisco Gayoso, Blas Vidal and Francisco Valverde.

**Prince Will Unveil Statue**

London.—The statue of Queen Victoria, purchased by the British Columbia government before the war for placing in front of the government buildings at Victoria, is being shipped; and it is hoped it will arrive in time for the Prince of Wales to unveil. The statue has been at the Royal Exchange.

## Germans Must Fulfill Peace Terms

Allies Will Show Firmness in Having Peace Treaty Fully Carried Out

Paris.—Commenting upon the action of the peace conference in simultaneously handing Austria, in final form, the peace terms framed for her acceptance, and the delivery to Germany of the vote demanding a change in the German constitution to eliminate the provision for the selection of Austrian representatives to the German parliament, the Paris newspapers declare this was not a simple coincidence. It means, the press argues, at once a firm resolution by the Allies to insist upon respect for the terms of the German treaty as regards Austria and the definite end of the Danubian monarchy.

## Australians To Learn Dry Farming

Hundred Picked Veterans Will Study Methods in United States

New York.—One hundred picked Australian soldiers will arrive in New York on the steamship Celtic, en route to the University of California, where they will take a twelve months' course in farming, it was announced here. They will return home and teach Australian soldier farmers scientific agronomy and irrigation.

The Australian Commonwealth recently appropriated nearly \$250,000 for the aid of returned soldiers and sailors in obtaining land holdings. Believing that a large number of veterans will go into agriculture, the government has sent the Australian delegation to the United States to study modern farming methods.

## Significant Shuffle In Cabinet

Hon. Arthur Sifton Now Minister of Public Works

Ottawa.—A small, but, in a way, significant shuffle in the cabinet took place, when Hon. Arthur Sifton, former minister of customs, walked across the square and took the place of Hon. F. B. Carvell as minister of public works. No announcement is yet made as to the customs portfolio, but it is quite possible that when Hon. Martin Burrell, secretary of state, goes out, H. H. Stevens, of Vancouver, will become minister of customs and the new secretary of state will come from New Brunswick.

By this move Mr. Sifton lends a live spending department, and considerable interest attaches to the change.

## Made In Germany

Story of Proposed Attack Upon Petrograd Without Foundation

London.—It has been ascertained that the dispatch from Berlin giving German reports from Riga to the effect that Gen. Gough, of the British army, had issued a proclamation to the population of Petrograd that an attack was about to be made on that city, is untrue.

Gen. Gough left Helsingfors August 19 for home, and at the present time is in England. He did not see Admiral Cowan, commander of the British naval forces, operating in the Baltic sea, before his departure for home.

**Armenians Fear Massacre**

London.—Responsible authorities in Armenia continue to emphasize the exceedingly grave situation that must follow the withdrawal of British troops. There are conclusive indications that as soon as the withdrawal occurs the Armenians will be attacked from the east and southwest by Kurds, Turks and Kurds, who will likely form a combined force under Turkish officers. The Kurds and Tatars are already moving towards Erivan, the Armenian capital, to be in readiness to strike when the Armenians are left defenceless.

**Threw Bomb at Governor**

Tokyo.—A bomb, received here from Seoul, capital of Korea, state that a bomb was thrown at Governor-General Saito and that twenty persons were wounded, including an American woman named, Harison, who is believed to be related to Carol Harison, former Mayor of Chicago. Governor-General Saito was not wounded. No further details were received.

**New Zealand Agrees**

Wellington, N.Z.—The peace treaty with Germany was unanimously ratified by parliament, after members of the Labor party had criticized the pact.

# Wilson Explains The Peace Treaty

100,000 Germans Escaped Service

Switzerland Leads Neutral Countries With 40,000 Deserters

Geneva.—Nearly 100,000 officers and men were considered deserters from the German army during the war, according to Munich advices. Included in this number are many thousands who were in England and America at the outbreak and were prevented from joining the German army, "although advised beforehand to join the colors," the dispatch says.

Switzerland leads the neutral countries with forty thousand deserters. A proclamation of amnesty to these men has been issued if they will return to Germany this year, but many former German soldiers in this country refuse to go back, fearing that they will be placed in the ranks once more because the allies have permitted Germany to retain her army on a war footing until the end of 1919. The amnesty proclamation does not apply to those accused of treason.

## Cheap Meat For U.S.

Five Million Pounds of Frozen Food Made Available By The Government

Washington.—Five million pounds of frozen meats, now in cold storage in New York and Chicago, were offered by the War Department to municipalities for sale. The offer will remain in effect until September 25, at which time other methods of marketing such portions of the stock as remain will be resorted to.

The meats in storage include about 1,120,000 pounds of frozen poultry at New York and more than 1,000,000 pounds in the Chicago zone. They will be sold at 32 cents per pound. Large quantities of frozen mutton and pork shoulders and loins also will be offered from 16 to 27 cents. Since these products can only be transported in refrigerator cars, no order for less than a carload lot will be accepted.

**German Doctors For Russian Army**  
Berlin.—The medical journals in Germany are publishing advertisements offering positions to German physicians and surgeons in the Russian army. Attractive pay and the right of securing home-lands is promised them.

Medical men are urged to enlist with volunteer troops units organized for fighting Bolshevism and are promised a premium of 5,000 marks if the counter-revolution is successful.

**Austria's Hopes Blasted**

Geneva.—The Austrian peace terms have been received in Vienna with great surprise and indignation, according to advices received here. It is believed that the Renner ministry will fall as a result.

Monarchistic circles consider that the terms have definitely killed any hope of the return of the Hapsburgs. Former Emperor Charles, who received the news from Paris soon after the reply of the allies was handed to the Austrian commission, has decided to leave Switzerland.

"No man ever comes half way up to the expectations his mother had of him when he was a boy."

# Feasibility Of Airplane For Commercial Use

London.—The Air Minister states that the demonstration flight recently carried out by the machine flown directly to Norway and landed at Christendom, this being the first occasion on which the journey has been accomplished by a British sea-plane. From Christendom the trip continued by stages to Christiania, Copenhagen, Stockholm, Gossburg, Esbjerg and back to Felixstowe, a total distance of 2,439 sea miles, which was covered in a total flying time of 40 hours and 40 minutes.

The flight was made entirely as a demonstration of the commercial use of flying boats, and it is noteworthy, because no mishap of any kind occurred, despite the fact that from its departure until its return to Felixstowe the machine spent a total of 27 days on the water or in the air. Exhibition and passenger carrying flights were carried out at Christiania, Christiansand and Copenhagen.

The first exhibition flights were made before the King and Queen of Norway, and as the Queen expressed a desire to fly, her Majesty was taken up on two occasions seated beside the pilot. Her Majesty was keenly interested in his manipulation of the controls and during the second flight when the Queen was accompanied by the Crown Prince, her Majesty actually took control of the flying boat for a short period.

A very good impression was created in each of the Scandinavian towns visited and it is hoped valuable results will accrue to the British aircraft industry in opening up what is perhaps the best market in the world for water-gearing craft.

Columbus, Ohio.—In the first speech of his trans-continental tour, President Wilson here urged the influence for acceptance by the United States senate of the peace treaty signed with Germany, and predicted that the senate would ratify the treaty.

"When this treaty is accepted," he said, "the men in khaki will never have to cross the seas again, and I say 'When it is accepted,' because it will be accepted."

Speaking in a capacity audience which filled every nook in Memorial Hall, the President said it was not his purpose during the trip "to debate" the treaty, but to expound it to the people. He declared there was a concert of feeling among the allied representatives at Versailles. Referring to the United States delegation, he said:

"We were under instructions, and we did not dare to come home without fulfilling these instructions. If I could not have brought back the kind of a treaty I did bring back, I never would have come back."

President Wilson appealed to his hearers if they would not read the treaty themselves, to at least accept the account of its contents as given by those who made it.

The League of Nations, he declared, was forceful in fulfillment of the promise that the United States was fighting this war to "end business that sort forever." Not to establish the league, he said, would have been unfaithful to those who had died. Besides, the President said, the treaty "clears away" the chains of oppression and gives small nationalities the right to live their own lives. "That," he said, "was the American position and I was glad to fight for it."

## France Accepted Friendly Offer

How They Agreed to Border Line Under Terms of Peace Treaty

Paris.—During the debate on the peace treaty in the Chamber of Deputies, Captain Andre Tardieu disclosed that France in February last had proposed that Germany's geographical frontier be fixed at the Rhine. He said that President Wilson and Premier Lloyd George had recognized the justice of the request, but instead of granting France the Rhine, they promised immediate help in the event of German aggression. France appreciated this offer, which was unique in history. Captain Tardieu said he was of the opinion the British army, if its services were ever required, would not arrive too late, as the German army would be unable to control its preparations.

## SCHOOL FAIR

The first annual school fair will be held at Chinook Friday, September 12th, 1919. The fair is conducted by the Olds School of Agriculture under the direction of the Alberta Department of Agriculture. The following schools will take part in this fair: Laughlin, Webster, Myrtle, Belle Plains, Longdale, Farming Valley, Crocus, Poplar, Buffalo Plains, Carpathia, Bison, Clover Leaf, Peyton, and Riddellvale.

The following rules will govern the fair:

1. Competition is open to pupils of the schools mentioned in this prize list.
2. Vegetable and flower exhibits must be from the seeds distributed.
3. Pupils who receive seeds must exhibit samples of the product.
4. No entry fee will be charged for any exhibit.
5. All exhibits must be the work of the exhibitor. Parents and teachers may advise and suggest but must not in any case do the work for the exhibitor.
6. Live stock and grain exhibits must be the property of the pupils or the pupils' parents.
7. Exhibits of live stock must have been fed and cared for by the pupil for three months previous to the fair.
8. Each school must arrange to bring its own exhibit to the fair.
9. No exhibitor may make more than one entry in one class.
10. All exhibits must be in place by 10.30 a.m. on the day of the fair.

**How to Work Corn Land**  
Cultivating corn level, not ridging or hilling soil round the stalks, saves moisture and adds to the yield. Ridging exposed a greater surface from which soil moisture can evaporate, and at the same time corn roots are cut off by the cultivator.

They hustled into their overcoats to the playing of the National Anthem. "Hurry," said Conward, "let's get out quick. Ain't she some dame? There—through the side exit—the stage door is that way. She promised to have her drama with her—they'll be waiting if we don't hurry."

Conward stared him to the stage entrance, where a little group was already congregated. In a moment the girl appeared, handsomely dressed in furs. Dave would not have known her, but Conward recognized her at once, and stepped forward. With her was another girl, also from the chorus, but Dave could not recall her part. He was suddenly aware of being introduced.

"This is my friend Belton," Conward was saying. Dave was about to correct him when Conward managed to whisper, "Whist! Your stage name. Mine's Edward. Don't forget."

Conward took the first girl by the arm, and Dave found himself following rapidly with the other. They cut through certain side streets, up a stairway, and into a dark hall. Conward was rattling keys and swearing amiably in his soft voice. Presently a door opened; Conward pressed a button, and they found themselves in a small but comfortably furnished room—evidently bachelor apartments.

The girls threw off their wraps and sauntered about the place, commenting freely on the furnishings and decorations, while Conward started a gas grate and put some water to boil.

"Sorry I've nothing for you to eat," he said, "but I've some good medicine for the thirst."

"Eating's poor business when there's a thirst to be quenched," said one of the girls, with a yawn. "And believe me, I've a long one."

Conward pulled a table into the centre of the room, set chairs about it, and produced glasses and a bottle. Dave experienced a sudden feeling as of a poor swimmer beyond his depth. He had never drunk, not even beer, not so much from principles of abstinence as from disgust over his father's drunkenness and emphysema towards the means of it.

The glasses were filled and raised. "Ho!" said Conward.

"Here's looking!" said one of the girls.

Dave still hesitated, but the other girl clinked her glass against his. "Here's looking at you," she said, and she appeared to lay special emphasis on the last two words. Certainly her eyes were on Dave as he raised her glass to her lips. And under the spell of those eyes he raised his glass and drained it.

Other glasses were filled and drained. The three were chattering away, but Dave was but vaguely conscious of their talk, and could weave no connected meaning into it. His head was buzzing with a pleasant dreamy

sensation. A very grateful warmth surrounded him, and with it came a disposition to go to sleep. He probably would have gone to sleep had his eye not fallen on a picture on the wall. It was a picture of a girl pointing her finger at him. He suspected that she was pointing it at him and as he looked more closely he became very sure of it. No girl could point her finger at him. He arose and made a lunge across the room. He missed her, and with difficulty retraced his steps to the table to make a fresh start.

"She's makin' fun of me," he said. "I can't stand for that. Nobody can do that with me. Nobody—see? I don't 'low it."

"Oh, you don't," laughed one of the girls running into a corner and pointing a finger at him. "You don't?"

He turned his attention to her, standing himself very carefully before he attempted an advance. Then, with wide-stretched arms, he bore down cautiously upon her. When he had her almost within reach she darted along the edge of the room. He attempted a sudden change in direction, which ended disastrously; and he found himself very much sprawled out upon the floor. He was aware of laughter, but what cared he? He was disposed to sleep. What better place to sleep than this? What better time to sleep than this? In a moment he was lost to all consciousness.

It was later in the night when he felt himself being dragged into a sitting posture. He remonstrated in a mumbling voice. "Is too early," he said. "Altogether too early. Early. Whew! Watch 'er spin," his job. Paid for it, ain't he?"

"Well, I ain't paid for this," said Conward, rather roughly, and you got to pull yourself together. Here, take a little of this; it'll put some gimp into you." He pressed a glass to his lips, and Dave swallowed.

"Where am I?" he said, blinking at the light. He rose uncertainly to his feet and stared about the room in returning consciousness.

"Where's the girls?" he asked.

"Gone," said Conward, sulkily. "Couldn't expect 'em to stick around all night to say goodbye, could you, or you sleeping off your drink?"

Dave raised his hand to his head. A sense of disgrace was already upon him. Then he suddenly turned in anger on Conward.

"You put this up on me," he cried. "You made a fool of me. I've a mind to bash your skull in for you. Don't be silly," Conward retorted. "I didn't enjoy it any more than you did—introducing you as my friend, and then have you got out like that. Why didn't you tip me? I didn't know it would put you to sleep."

"Schuler did it," said Dave.

"Well, the next thing is to get you home. Can you walk?"

"Sure," Dave started for the door, but his course suddenly veered, and he found himself leaning over a chair. Conward helped him into his overcoat, and half led, half shoved him to his boarding house.

### CHAPTER SIX

Elden awoke Sunday morning with a feeling that his head had been boiled. Also he had a prodigious thirst, which he slacked at the water pitcher. It was the practice of Metford's gang to select one of their number to care for all the horses on Saturdays, while the others enjoyed the luxury of their one day of leisure. In consequence of this custom the room was still full of snoring sleepers, and the air was very close and foul.

Dave sat down by the little table, that fronted the open window and rested his head on his hands. It was early spring; the snow was gone; dazzling sunshine bathed the prairies in the distance, and near at hand were the twitter of birds and the ripple of water. It was a day to be alive and about.

But the young man's thoughts were not of the sunshine, nor the fields, nor the water. He was recalling, with considerable effort, the events of the previous night, piecing them together in impossible ways, reconstructing them until they offered some sequence. The anger he had felt toward Conward had subsided, but the sting of shame rankled in his heart. He had no doubt that he had furnished the occasion for much merriment upon the part of the young women, in which, quite probably, Conward had joined.

Only Tablets Marked With "Bayer Cross" Are Aspirin

If You Don't See the "Bayer Cross" on the Tablets, Refuse Them—They Are Not Aspirin

There is only one Aspirin, that marked with the "Bayer Cross"—all other tablets are only acid imitations. Look for the "Bayer Cross"! Then it is real Aspirin, for which there is no substitute.

Aspirin is not German, but is made in Canada by Canadians, and is owned by a Canadian Company. Genuine "Bayer Tablets of Aspirin" have been proved safe by millions for Pain, Headache, Neuralgia, Colds, Rheumatism, Lumbago, Neuritis.

Handy tin boxes of 12 tablets—also larger "Bayer" packages—can be had at any drug store.

Aspirin is the trade mark, registered in Canada, of Bayer Manufacturing of Monocaceticacidester of Salicylic acid.

## SUNDAY SCHOOL LESSON

LESSON FOR SEPTEMBER 14

### JUDGMENT OF THE NATIONS

The subject selected by the lesson committee is "The Future Life," but at best such a statement would be the use of the term in an accommodated sense. According to legitimate textual and contextual significance it is the judgment of the living nations which lies still in the future (v. 32). The idea of a general judgment which is of such frequent occurrence in religious literature and teaching is a fundamental error. It is not once found in the Bible, neither the idea which it is intended to convey. Doctor Pevsner most distinctively says, "It is a mischievous habit that has led the Christian world to speak of the judgment as being one great event taking place at the end of the world, when all human beings, saints, sinners, Jews and Gentiles, the living and the dead, shall stand up before the great white throne and there be judged. Nothing can be more wide of the Scriptures." The Bible speaks of different judgments, differing in respect to the subjects to be judged, the place of judgment, the time of judgment and the result of the judgment. This is not the judgment set forth in Revelations 20:11-14, but precedes that one at least one thousand years.

I. The Judge (v. 31).

It is the Son of Man, the one who came and died to redeem the human race, and who now being clothed with majesty and power will act as judge. Those who accept him now shall not come into the judgment (John 5:24).

II. The Time (v. 31).

This will be when the Lord comes in his glory, accompanied by a retinue of glorious angels. This will take place after he has gathered the elect remnant of Israel. There will be no resurrection in connection with this judgment.

III. The Place (v. 31).

It will be on his glorious throne. This throne will be made surely in the land of Israel. The Prophecy of Joel, third chapter, and Zechariah 14:1-5, make it to be in or near Jerusalem. The angel said to Mary: "Thou shalt call his name Jesus; he shall be great and shall be called the son of the highest; and the Lord God shall give unto him the throne of his father David; and he shall reign over the house of Jacob for ever, and of his kingdom there shall be no end." (Luke 1:31-33). Just as there was a literal place and a literal king there shall be a literal throne.

IV. The People Judged (vv. 32-43).

These will be the living nations upon the throne after the church has been translated (I. Thess. 4:16, 17). These are the nations to whom the gospel of the kingdom shall be preached just prior to the coming of the end. "And this gospel of the kingdom shall be preached in all the world for a witness unto all nations, and then shall the end come" (Matt. 24:14). This gospel is distinguished from the gospel of the grace of God which is now being preached. The preachers of this gospel will be Jews (Rev. 7 and Rom. 11). These are the brethren in the flesh, of the Lord, that move among the nations of the world with the startling message of the news of the Lord's approaching kingdom. Some of the nations will gladly receive the message and most kindly receive the king's messengers, giving them clothing, food, shelter, etc. Others will persecute them, thrusting them into prison, etc. Here the former will visit these messengers of the king and provide for their wants. At this time the judge will separate the nations, placing the sheep on the right and the goats on the left. The "sheep" are those who have given proper treatment to Christ's brethren. The goats are those who rejected and ill-treated the brethren. If these three classes, the "sheep," "goats," "brethren," be kept separate, all confusion will be avoided.

V. The Issue of the Judgment (v. 46, cf. 34-41).

1. The sheep enter upon the inheritance of a prepared kingdom (v. 34).

2. The goats go into an everlasting fire prepared for the devil and his angels (v. 46). This judgment shall determine their destiny.

## Yorkshire Miners

### Cost Nation Dear

#### Strike Fund Exhausted With End of Fourth Week's Benefits

London.—The Yorkshire miners' strikes have been an expensive thing for the miner as well as for the people not directly connected with the dispute. The generally accepted figures are:

Damages to mines, \$10,000,000; coal lost to industry, \$15,000,000; losses to kindred industries, \$12,500,000; the strike fund of the miners, amounting to \$1,400,000, was exhausted with the end of the fourth week's strike benefits. This fund, it was stated, had taken some 25 years to accumulate. The Local Government Board, it is stated, cut out a lot of red tape, and with the co-operation of the local relief authorities averted distress throughout the district. In some cases \$2.50 a week was allowed every married woman, with \$1.25 for every child. This money, with the strike benefit, averted the authorities believe, a great deal of suffering.

When you hear a man say that he is tired of the world it's a safe bet that the world is tired of him.

## Had a Very Bad Attack

### OF

#### Bowel Complaint

IT WAS CURED BY

DR. FOWLER'S

EXTRACT OF WILD STRAWBERRY

Any one suffering from bowel complaints such as diarrhoea, dysentery, colic, cramps and pains in the stomach, summer complaint, etc., will find that Dr. Fowler's Extract of Wild Strawberry will give quick relief and permanent relief than any other remedy on the market today.

This old tried and proven medicine has been on the market for the past 74 years. You don't experiment when you buy it. Surely the test of time proves it.

Mrs. Daniel Hartwick, Mountain Grove, Ont., writes: "I used Dr. Fowler's Extract of Wild Strawberry and it cured me of a very bad attack of bowel complaint. Nothing prescribed by the doctor seemed to do me any good. She got worse, until I thought we would lose her. I got a bottle of Dr. Fowler's, and the soon found relief. Everyone who has children should not be without it in their house."

Price 35 cents a bottle; put up only by The T. Milburn Co., Limited, Toronto, Ont.

## London-Paris Air Service

### Journey Both Ways Being Made in Just Under Six Hours

London.—Three machines took part in the inauguration of the air express service to Paris, the journey both ways being made in one machine in just under six hours.

The "Airco 41," which belongs to the Aircraft Transport and Travel Limited, and which has often carried Mr. Bonar Law and General Seely to France, carried one passenger and a cargo of goods and accomplished the journey in scheduled time.

The "Airco 16," piloted by Major C. Patterson, M.C., carried several journalists and a cargo of newspapers at the fast speed of 140 miles per hour, also arriving to time, despite head winds.

The Handley Page machine, piloted by Major Foote, carried 11 passengers, but was detained in Paris. All the machines were examined by customs officers at Hounslow and at Le Bourget before departure and on arrival.

## Trade With Central Powers

### British Ships Take Cargoes at Hamburg and Bremen

London.—A great deal of curiosity is being evinced by the British public regarding the effect of the reopening of trade with the central European powers. Although it has been known for some time that German firms have been sending circulars to British business houses offering articles for sale, it was generally believed some hesitancy still existed among commercial houses with regard to the resumption of business relations with the central powers.

Owing to the lack of shipping facilities, it will be impossible for any consignments of imports to reach Great Britain for some time to come. The Peninsula and Oriental, British India and Wells lines announced their vessels will load at Hamburg and Bremen.

A recent issue of the Aberdeen Journal was the 20,000th number of that venerable newspaper—the oldest in Scotland. The first issue of the Journal was published on April 18, 1746, and contained an account of an eye-witness of the battle of Culloden fought two days previously.

Some men always do their best—including their best friends.

## Finest Thing Ever For Chronic Catarrh!

Gets Away From the Medicine Habit, Cures By Novel Method

With the many remedies you have tried you surely know that no liquid medicine can cure your throat or nose. Even a gargle only bathes the entrance of the throat—it can't really get inside, nor can it reach the inflamed bronchial tubes.

With Catarrhazone, it's so different from medicine-taking, you simply breathe its healing vapor, inhale its balsamic fumes, which carry cure and relief to the minutest air cells in the lungs, nose, throat, and bronchial tubes.

In this scientific way the soreness and inflammation is rapidly allayed, relaxed cords are toned up, the entire mucous membrane invigorated. Every trace of catarrh disappears, the disagreeable dripping of mucus in the throat, hawking, spitting and stopped-up nostrils—all these sure signs of catarrh and bronchitis are permanently cured by Catarrhazone. Large outfit lasts two months, costs 25 cents, small size 50 cents, trial size 25 cents at dealers everywhere.

## Hutterites Must Educate Children

### Must Conform to Regulations or Suffer Prosecution

Winnipeg.—The Hutterites, as in the case of the Mennonites, must conform to the regulations of the Manitoba school attendance act or suffer prosecution, was the decision announced by the department of education.

Robert Fletcher, the deputy minister of education, visited the colonies at Eli, Man., and informed the Hutterites that they must make some provision for the education of their children. A school is under erection now, and upon completion the department of education will appoint trustees, as the Hutterites do not take part in elections, and assign a teacher to the school.

## One Big Union Is Dead Issue

Winnipeg.—In the opinion of R. A. Rigg, organizer for the international union in the West, the "One Big Union" movement is definitely defeated. As far as Regina, Saskatoon and Moose Jaw are concerned.

"Very little O. B. U. sentiment is apparent in these cities, and with very few exceptions the unions are lining up behind the international."

## GIRLS! WHITEN YOUR SKIN WITH LEMON JUICE

Make a Beauty Lotion for a Few Cents to Remove Tan, Freckles, Sallowness

Your complexion has the lemons and any drug store or chemist will supply you with three ounces of orchard white for a few cents. Squeeze the juice of two fresh lemons into a bottle, then put in the orchard white and shake well. This makes a quarter pint of the very best lemon skin whitener and complexion beautifier known. Massage this fragrant, creamy lotion daily into the face, neck, arms and hands and just see how freckles, tan, sallowness, redness and roughness disappear and how smooth, soft and clear the skin becomes. Yes! It is harmless, and the beautiful results will surprise you.

Fortune Teller (reading cards): "You have money coming to you, but no sickness whatever."

Client: "That's singular! I'm a new doctor across the street."—Boston Transcript.

One blow starts the trouble—and occasionally ends it.

## THIS WEEK, NERVOUS MOTHER

Tells How Lydia E. Pinkham's Vegetable Compound Restored Her Health.

## Mysterious Blaze Reported At Sea

Captain Smith Saw a Flash of Fire Ten Miles Distant

New York.—Another mystery of the sea was reported upon the arrival of the steamer Merak, from Rotterdam, with a tale of a strange explosion. Captain James Smith said that when approximately 600 miles from New York he saw a flash of fire to the north of his ship at 3:50 a.m. He judged it was about ten miles distant from his position.

Three hours later, Captain Smith reported, red-hot material was thrown high into the air and he plainly heard a terrific explosion. He found no trace of wreckage, however, although the weather was clear and there was a smooth sea.

An Easy Pill to Take.—Some persons have resorted to pills because of their nauseating taste. Parment's Vegetable Pills are so prepared as to make them agreeable to the most fastidious. The most delicate can take them without feeling the revulsion that follows the taking of ordinary pills. This is the reason for the popularity of these celebrated pills, but the main reason is their high tonical quality as a medicine for the stomach.

## To Exclude Germans.

Scores of Germans who took refuge in Switzerland during the war, and have since expressed a determination to secure naturalization in that country, find the government has determined to exclude all Germans and other foreigners who have been living in Switzerland during the war. This qualifying period for naturalization will be raised from two years to twelve, including six years actual residence.

## Aero Club of Manitoba

Winnipeg.—The Aero Club of Manitoba is to be the official title of the organization of former air service men formed in this city recently. The objects of the club are to promote good fellowship among those interested in flying, to promote flying and to safeguard fliers, to assist in recruiting in an emergency, to render charitable and financial aid to flying men in case of need, and to stimulate interest in flying, also to raise patriotic funds if the necessity arises.

## New Air Stunt Succeeds

New York.—A feat never before attempted was successfully performed here by three aviators, who flew consecutively under the five East River bridges. Lieut. A. S. Roberts headed the trio with Lieut. C. H. Harross, who was recently married in an airplane, on his left and Lieut. N. L. Elliott on his right. They flew in the form of a triangle.

## Liquor Congesting London Docks

Big Revenue in Sight If Government Cares to Make Use of It

London.—One of the chief causes of the unprecedented state of congestion on the London docks is said to be an enormous influx of wines and rum for which the liquor trade gave tremendous orders immediately after the armistice was concluded. It is reported that the port of London authorities are taking steps to slow down these shipments until conditions become more normal.

A suggestion that the government could look to the liquor trade to ameliorate its financial problems was made in a speech at Cardiff by Baron d'Abernon, chairman of the capital (liquor traffic) control board, and well known as a financier. Baron d'Abernon said that despite the increased taxation, the profits from the sale of liquor were greater than at any period in the trade's history. If financial conditions required he added, the revenue from alcohol could easily be brought up to £200,000,000 yearly.

Oil for Toothache.—There is no pain so acute and distressing as toothache. When you have so much trouble, a visitor apply Dr. Thomas' Electric Oil according to directions and you will find immediate relief. It touches the nerve with soothing effect and the pain departs at once. That it will ease toothache is another fine quality of this Oil, showing the many uses it has.

## Confiscated Jewels Recovered

Vienna.—Baron Adolph Ullman, director-general of the Hungarian credit bank, is quoted by the Vienna papers as saying that the private accounts, and likewise the jewels, confiscated by the Red Army government, have been found intact in the various banks. The jewels were systematically tagged with their owners' names.

## Finder of Gold at Vimy Ridge Sought

London.—Canadian headquarters has received an inquiry concerning a sum of gold stated to have been buried on a LaSalle farm, near Vimy Ridge, by a farmer, and subsequently discovered by Canadian soldiers, who gave it to their superiors. Anybody possessing any knowledge of this matter should communicate with headquarters.

## Hurrah! How's This

Cincinnati authority says corn dries up and lifts out with fingers.

Hospital records show that every time you get a corn you invite lockjaw or blood poisoning, which is nothing less than a Cincinnati authority, who tells you that a quarter ounce of a drug called frezzone can be obtained at little cost from the drug store, and is sufficient to rid one's feet of every kind of corn or callus. Frezzone is a sticky, white, sticky substance, which can be lifted out of the corn without pain. This drug is sticky, but dries at once and is flamed off just as if you were without inflaming or irritating the surrounding tissue or skin. If your wife wears high heels she will be glad to know of this.

## Altered Cases

"Where's my watch?" asked the observant man. "Why, here it is," replied the man whose pocket watch had slipped back a couple recently. "But that's a silver one. The one you used to have had a handsome gold case." "Well, — er — circumstances alter cases."

## Minard's Liniment for sale everywhere.

Government Forces Absorb Bavarian Army

Munich.—The Bavarian army finally has come to exist. It is the part of the imperial defence army. President Ebert and Minister of Defence Noske were present at the ceremony of incorporation. The Bavarian troops were officially turned over to the government forces and held a review by President Ebert with the troops under the national regime. The Bavarian war minister, Scheuchner, leaves office, which henceforth will be non-existent.

## Relieve Congestion Of London Traffic

Plan to Make 5,000 Trucks Do Work of 95,000 Vehicles

London.—A. G. Cattle, in a conference with the board of trade committee with reference to his scheme for the reform of freight traffic in London, said that his proposal to use 5,000 motor trucks for the transport of commodities through London, in connection with a centralized freight station, would take 95,000 vehicles off the traffic-jammed streets. Criticizing the present methods of handling cargoes on the London docks, he said, "it reminded him of 'bailing a cistern with a teaspoon.' He advocated the employment of deep water wharves, abandoning docks.

## Minard's Liniment Can Limited.

Dear Sirs—I had a bleeding tumor on my face for a long time and tried a number of remedies without any good results. I was advised to try MINARD'S LINIMENT, and after using several bottles it made a complete cure, and it healed all up and disappeared altogether.

DAVID HENDERSON, Belleisle Station, Kings Co., N.B., Sept. 17, 1904.

'White lies are apt to leave black marks on a man's reputation.

Minard's Liniment Relieves Neuralgia.

## Would Abolish Conscription

Washington.—Withdrawal of the United States from the League of Nations two years after ratification of the peace treaty, unless all nations abolish conscription within that time, was provided for in a bill introduced by Senator Jones, Washington, a Republican.

No matter how deep-rooted the corn or wart may be, it must yield to Holloway's Corn Cure if used as directed.

## Province Of Saskatchewan

Twice the Size of the United Kingdom and Is Considerably Larger Than Germany.

The province of Saskatchewan occupies 251,700 square miles, or equal to the combined area of France, Belgium and Holland. It is twice the size of the United Kingdom, and is considerably larger than Germany. It stretches for 760 miles from north to south, and has an arable land area of 57,844,160 acres. Only 23 per cent. of its arable land is under cultivation, and in 1916 its population was 69,235.

The value of the grain crop in 1918 was \$120,245,000. This year there are over ten million acres of land in wheat in this province. The average wheat yield in Saskatchewan for the past six years was eighteen bushels per acre per year, while the average wheat yield in the same period in the United States was sixteen bushels per acre per year.

The city of Regina is the capital of the province. Here are very striking and imposing Parliament Buildings. The capital city has a population of about forty thousand.

The province owns its own telephone system, both local and long distance. It has a splendid university, and Agricultural College situated at Saskatoon.

There are two thousand elevators situated throughout the province, with a total capacity of sixty million bushels. Government elevators are operated by Government commissioners, and have been very successful.

A great many Americans have settled in this province, the city of Moose Jaw being the distributing centre for the vast passenger business that comes into Canada by way of Minneapolis and St. Paul. Saskatchewan is destined to be predominantly the wheat growing province of the Confederation, and already its total annual wheat yield compares most favorably with any province in Canada.

## Canada's Fish Catch Shows Gain

Halifax.—The total value of sea fish landed in Canada, at the point of landing, during the month of July was \$1,899,818, as compared with \$1,306,124 for the same month last year. This is an increase of \$593,694. Good fishing weather prevailed throughout the month on the Pacific coast, with the result that the salmon catch rose to 343,000 cwt. against 268,000 for the same month last year. The increase, says the monthly statement of the naval department, was contributed altogether by the northern district; the Fraser and Vancouver Island districts together fell short by about 9,000 cwt.

The heart of a coquet is like a street car, inasmuch as there is always room for one more.

## Board Of Commerce To Control Sugar

Board of Commerce Prohibits Certain Parties Exporting Sugar and Unfairly Enhancing Prices

Ottawa.—The Board of Commerce has taken action to control sugar prices by restraining and prohibiting certain parties from disposing of sugar in such a way as is calculated to unfairly enhance its cost. They are particularly restrained from exporting sugar out of Canada. It was stated at the office of the board that this action was taken in view of excessive and unfair prices charged for sugar, and also because large quantities are being or are threatened to be exported from Canada, notwithstanding the urgent need for it in the Dominion. The Board will hold an investigation in Montreal to consider generally the supply and prices of sugar and the effect on the community of the threatened export of this commodity.

## Assimilation Of Foreigners

Dr. Weir Pleased With Progress Made in Saskatchewan Settlements

Saskatoon, Sask.—Dr. G. M. Weir, principal of the Saskatchewan Normal School, has returned from a tour of school districts in foreign settlements with Dr. J. T. M. Anderson, director of education among foreign populations.

"Conditions are most hopeful," said Dr. Weir. "I was surprised at the progress made in many of the backward districts. I believe the Saskatchewan Department of Education is now following the most efficient and successful course. Erecting residences for the teachers is a great factor in the solution of the problem, as it makes living conditions more attractive. It will, of course, take a generation to completely solve the problem, as everything depends on assimilation, but I am sure that we are now going in the right direction."

## Big Enough Then

"What small feet your wife has!" "Yes, but they're plenty big enough when she starts to walk all over me."

## May Bar Food Export

Anxiety in London That U.S. and Canada May Follow Example of Spain

London.—Some anxiety is felt here that the United States and Canada will follow the example of Spain and prohibit the export of foodstuffs, especially wheat flour, in order to relieve the abnormal prices at present affecting the American continent. Opinion is that such an embargo will drive down prices, and its feasibility is enhanced by the tendency of the European order to sit tight. While Europe's food outlook for 1920 is not promising, eight months' supply assured, and there is little inclination to buy a large future supply at abnormal prices. Municipal markets are now being opened and are reducing the price of green stuffs 30 to 50 per cent., the result having a decided moral effect.

Be happy and perhaps you'll be good.

## CHOLERA INFANTUM

Cholera infantum is one of the fatal ailments of childhood. It is a trouble that comes on suddenly, especially during the summer months and unless prompt action is taken little one may soon be beyond aid. Baby's Own Tablets are an ideal medicine in warding off this trouble. They regulate the bowels and sweeten the stomach and thus prevent all the dreaded summer complaints. They are an absolutely safe medicine being guaranteed by a government analyst to contain no opiates or narcotics or other harmful drugs. They cannot possibly do harm—they always do good. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## Reparation Commissioner

New Reparation Commissioner London.—Sir John Bradbury, joint permanent secretary to the Treasury, has been appointed principal British representative on the reparation commission in Paris, and is succeeded by W. Fisher. Three departments have been set up in the Treasury to deal with supply services, establishments, and general financial administration.

The pore-cleansing, purifying and sterilizing properties of this wonderful skin soap, using plenty of hot water and soap, best applied with the hands, will prove helpful to those who use it for the first time. Touch eruptions, roughness or irritation, if any, with Cuticura Ointment before bathing. Dry and dust lightly with Cuticura Talcum, a fascinating fragrance for powdering and perfuming the skin. Nothing better than these ideal skin purifiers and their cost is but little.

Cuticura Soap 25c, Ointment 25c and 50c, Talcum 25c. Sold everywhere. For sample, each free ad; dress: Cuticura Dept., N. Boston, U.S.A.

## Salaried Men Organize

Japan Has a League for Improvement of Wages

New York, N.Y.—That discontent among middle class or salaried workers, resulting in organization for the expression of their demands, has spread as far as Japan, is declared by Charles Hodges, lecturer on far eastern trade at New York University. Mr. Hodges says Japan has a league for the improvement of the wages of the salaried men whose demands are: That profits of limited companies be distributed first among employees and afterward among shareholders; that there should be a reserve fund for the benefit of retiring employees, to be controlled by the employees' union; that period of service should be limited and a minimum living wage established. The league, says Mr. Hodges, is advocating an associated movement of persons in the middle class. Labor propaganda is being pushed by the Nippon Rodo Rengo Kai, or the Japanese Associated Labor Society.

The poor man who is going down hill needs a substantial check.

## Chinook Breezes

Ed Russell, who moved to B.C. a year or two ago, is back again in Chinook for a few weeks.

Art Lensegraf left on Wednesday morning for Minn., U.S. where he will attend school.

The dining room of the hotel is being overhauled, re-painted and kalsomined.

There will be a service in the Crocus district, at the home of Mr. W. A. Todd, next Sunday afternoon, at 3 o'clock. Everybody welcome.

A board of trade meeting was called for Wednesday evening of last week, but as only three members showed up the meeting was called off.

A new and larger engine and pumping house is being built at the depot, to replace the one burnt down two or three weeks ago.

On Monday, on account of some freight cars being off the track at Dobson Siding, both the east and west bound passenger trains were some ten hours late.

The village council has provided a neat and substantial, as well as fire-proof, fire hall and council room, and have also built a tower for the fire bell. These replace the ones that were destroyed by fire when the garage was burnt down.

Mrs. H. Howton of Big Spring met with a very peculiar and painful accident on Tuesday. She was leading the cow home when the animal ran away, pulling Mrs. Howton over and dragging the chain across her face and badly lacerating her lip.

Mr. A. Bushby, of the Bank of Commerce staff, Saskatoon, was visiting his sister, Mrs. D. Northgraves, over Sunday for a few days. Mr. Northgraves and Mr. Bushby motored to Gadsby to Mr. Northgraves' other farm, where he is pasturing his purebred Shorthorn cattle, in charge of his sons.

Considerable indignation is felt at the action of the Dominion Government in refusing to appoint a Commission for the purpose of inquiring into, and reporting upon a further bonus proposition for returned soldiers. It must be understood that, although a specific amount was mentioned in the original Major Eaton scheme, the demand of the veterans at the present time is exclusively to have this Commission appointed.
